PACK 1

➤ From your IP system you dial a 5-digits code followed by the ISDN number of the far site:

- 11384*00442078965432

➤ You choose the bandwidth 128, 256, 384Kbs,...

- 11**384***00442078965432 for 384Kbs to UK

- 11**128***0012128965432 for 128Kbs to USA

PACK 2

➤ You are only over IP, your far site has ISDN only and would like to call you.

➤ You have a virtual ISDN number permanently redirected to your IP system.
