

4 days left before the G20 Young Entrepreneur Summit!

Several weeks ago, G2J was selected from over 700 candidates to be the flag carrier of the French entrepreneurial ecosystem at the G20 Young Entrepreneur Summit. From October the 31st, G2J will participate to the different events organized, upstream of the international conference to be held on November, the 2nd.

These events will bring together the delegations of entrepreneurs of each member state of the G20 and will lead to the signature of an announcement to the G20 heads of state. The document will record recommendations on how to encourage entrepreneurship.

The French President supports the initiative and states "'SMEs are the backbone of developed and emerging economies as they ensure growth and create jobs."

Various topics will be discussed during these days including:

- Young people and Entrepreneurship
- Access to funding
- Entrepreneurs' pro-active role in the economic and social life of their country.

The International Conference of Entrepreneurs is above all an opportunity to show the role of SMEs and entrepreneurs in the French competitiveness.

To all entrepreneurs: Have a nice G20Yes!

About G20 Young Entrepreneur Summit:

The G20 Young Entrepreneurs' Alliance is a global network of young entrepreneurs and the organisations that support them. It has been established to convene each year in advance of the G20 Summit with the aim of championing the importance of young entrepreneurs to the G20 member nations and to share our own examples and practices.

About G2J :

With a pedigree stretching back to 1994, G2J is the only French videoconferencing specialist that is able to offer a full range of services – helping you to set up remote meetings simply and securely all over the world, whatever your access method and your equipment.

Public institutions (G8, FMI), SMEs (Boursorama, Somfy), major corporations (Auchan, Arcelor, EDF) in all sectors use G2J to *guarantee* that their videoconferences run without a hitch, while delivering the necessary **security and **quality**.**

G2J, it is 3500 managed endpoints, 300 000 users a year, 4500 videoconferencing and telepresence rooms all over the world and 253 000 tons of CO2.
